Only individuals or entities that submitted timely, specific written comments during a designated opportunity for public participation (scoping or the 30-day public comment period) may object (36 CFR 218.5). Notices of objection must meet the requirements of 36 CFR 218.8. Objections must be filed with the Reviewing Officer within 45 days from the date of publication of notice of the opportunity to object in The Oregonian. The publication date is the exclusive means for calculating the time to file an objection. Those wishing to file an objection to this draft decision should not rely upon dates or timeframe information provided by any other source. Objections sent by U.S. Postal Service or other private carrier must be post marked or date stamped before the close of the objection period and must be received before the close of the fifth business day after the close of the objection filing period.

Incorporation of documents by reference is not allowed, except for the following list of items that may be referenced by including date, page, and section of the cited document, along with a description of its content and applicability to the objection: 1) all or any part of a federal law or regulation; 2) Forest Service directives and land management plans; 3) documents referenced by the Forest Service in the subject EA; or 4) comments previously provided to the Forest Service by the objector during public involvement opportunities for the proposed project where written comments were requested by the responsible official. All other documents must be included with the objection.

Issues raised in objections must be based on previously submitted specific written comments regarding the proposed project or activity and attributed to the objector, unless the issue is based on new information that arose after the opportunities for comment. The burden is on the objector to demonstrate compliance with this requirement for objection issues.

Minimum requirements of an objection area described at 218.8(d). An objection must include a description of those aspects of the proposed project addressed by the objection, including specific issues related to the proposed project; if applicable, how the objector believes the environmental analysis or draft decision specifically violates law, regulation, or policy; suggested remedies that would resolve the objection; supporting reasons for the reviewing officer to consider; and a statement that demonstrates the connection between prior specific written comments on the particular proposed project or activity and the content of the objection, unless the objection concerns an issue that arose after the designated opportunities for comment.

Objections may be submitted several ways:

- Postal Delivery: Forest Supervisor, Objection Reviewing Officer, Mt. Hood National Forest, 70220 E. Highway 26, Zigzag OR 97049. *(Note: the Forest Supervisor is temporarily stationed at the Zigzag Ranger Station while the Sandy office is being remodeled.)*
